Questions

1. Can you humbly admit a time when you made a complete miscalculation – when your assessment of yourself or your plan seemed so right yet turned out to be totally wrong?
2. Where have you seen Anger be destructive to leadership – in your family business? (Coming from you or coming toward you?)
3. Moses and Peter started out with the wrong Operating System....a system built on power. They had to learn about Servant Leadership (upside down pyramid). How could you take Servant-Leadership into your family & workplace?
4. Do you have an accurate view of yourself?
