Questions

1. You are the Pilot of your own life - what does your main fuel gauge tell you about the condition of your Soul? (Full or running on fumes?)
2. What are the significant problems/circumstances in your life that drain your fuel tank and might cause you to crash your life or at least drift off course with God?
3. God made mankind with: Emotions to Love God, The Mind to Know God, and The Will to Obey God. Which seems to come the most naturally for you - which is a struggle or weakness?
